2022

2nd CALL FOR PAPERS

The [Micro and Nano Engineering \(MNE\) conference](#) is the flagship event of the international Micro and Nano Engineering society ([iMNEs](#)) and the premium international meeting on:

- ✓ micro/nanofabrication and manufacturing techniques
- ✓ application of micro/nanostructures, devices and microsystems into electronics, photonics, energy, environment, chemistry and life sciences

IMPORTANT DATES & DEADLINES

Congress Dates : Monday 19 until Friday 23 September 2022

Abstract submission: **May 2nd, 2022**

Acceptance of abstracts : **June 5th, 2022**

Registration will be open as from **May 1st, 2022**

Registration Early Fee : **Until July 15th**

Registration Standard fee : **Until August 31st**

Registration Late Rate/On-site : **After August 31st** (no ON-SITE payment, online only)

CONFERENCE TOPICS

The **MNE2022** technical program committee welcome submissions of high-quality abstracts for 4 thematically focused technical tracks, as listed below. In addition, two events will be held during MNE2022: the [Plasma Etch and Strip for Microtechnology](#) workshop (PESM) and the special sessions on [Superconducting Micro- and Nano-Devices](#) (SMND). There are two different submission types: oral and poster.

- **Topic 1 - Novel Developments in Nano/Micro Fabrication Methods and Processes (incl. PESM)**
- **Topic 2 - Fabrication and Integration of Micro/Nano Structures, Devices and Systems**
- **Topic 3 - Micro/Nano Engineering for Physical and Chemical Applications (incl. SMND)**
- **Topic 4 - Micro/Nano Engineering for the Life Sciences**

Please click on the following links to find out all the details about the abstract submission flow as well as the template to use for submission : [ABSTRACT](#) / [TEMPLATE](#)

For any questions, please contact the MNE2022 program office at program@mne2022.org.

For further details, check www.mne2022.org or send an email to the Conference Office at : info@mne2022.org

LEUVEN, YOUR HOST CITY

The Conference will be organized in the Gasthuisberg academic campus, located just outside the cosy town centre, next to the academic hospital of the KU Leuven.

Leuven voted one of the five top destinations in Europe in 2022 !

Due to the presence of multiple higher level education institutes, among which the KU Leuven, the many students create a young, vibrant atmosphere and a pleasant bustle in the venerable city centre. Thanks to the university, Leuven has been an innovative city of knowledge for centuries. The historic city centre's beautiful monuments and rich heritage are a great showcase, as are the modern, urban renewal projects. Culture and creativity reign. Moreover, Leuven is home to Stella Artois, a hot spot for beer buffs and gourmants. Plus, Leuven is a UNESCO World Heritage Site, more precise the area called Groot Begijnhof. The [Groot Begijnhof](#) (Great Beguinage) of Leuven is a well preserved beguinage and completely restored historical district containing a dozen streets in the south of downtown Leuven. About 3 hectares in size, it is one of the largest remaining beguinages in the Low Countries (Belgium and the Netherlands). The complete beguinage is owned by the [KU Leuven](#) and is part of the campus.
